SUMMARY

Passionate Software Engineering undergraduate with hands-on experience in React, Flutter, and backend development. Skilled in building scalable web and mobile applications while following clean architecture and best coding practices. Currently interning as a Software Developer at Syntax Erreur. Eager to enhance skills and gain deeper industry exposure through a challenging internship or associate-level opportunity.

LANGUAGES

Tamil | English | Sinhala

SKILLS

Languages: Java, Python, JavaScript, TypeScript, Kotlin, SQL, HTML, CSS

Frontend: React.js, Flutter, Next.js, Redux, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Prisma ORM, Flask

Databases: MongoDB, PostgreSQL, MySQL

DevOps & Tools: Docker, Git, GitHub, Postman, AWS S3, AWS Pinpoint

Other: Clean Architecture, REST API Development, BLoC State Management, Agile Methodology

INTERESTS

Sports | Tech Enthusiast | Music | Travelling

CERTIFICATES

MERN Stack - University of Colombo School of Computing

Completed an 8-week (60-hour) training course on full-stack development using MongoDB, Express, React, and Node.js.

CS50x - Harvard University (via edX)

Completed CS50x, including ten problem sets and one final project, covering fundamental computer science and programming concepts.

EXPERIENCE

Syntax Erreur

Intern Full-Stack Developer

May 2024 – present | Remote

- Built and maintained cross-platform applications using **Flutter**, **React**, **Next.js**, and **TypeScript**, ensuring responsive UI and smooth user experiences.
- Developed backend APIs with **Node.js**, **Express.js**, and **Prisma ORM**, integrating **SQL/NoSQL** databases and implementing secure **JWT** authentication.
- Applied **state management** with **Flutter BLoC** and **Redux**, improving code scalability and navigation flow.
- Dockerized services to streamline development and boost deployment efficiency.
- Created admin panels with **Vite.js** and **shadcn/ui** for efficient content and user management.
- Integrated **Firebase Authentication**, **Cloud Messaging**, and **Analytics** for secure login, real-time notifications, and app performance monitoring.
- Implemented **AWS S3** for secure file uploads and **AWS Pinpoint** for email verification.
- Collaborated on key projects like a **recruitment platform**, **service request system**, and **POS applications**, delivering reliable full-stack solutions on tight deadlines.

PROJECTS

Flutter App for Stock Management

- Developed a Flutter-based mobile application for stock management tailored to a small business, implementing **Firebase Authentication** for secure login and **Cloud Firestore** for real-time inventory data management.

React E-Commerce Website

- Built a fully responsive e-commerce website using **React**, **Node.js**, **MongoDB**, and **Express**.
- Integrated product listings, user authentication, and a shopping cart.

Console System For Skin Consultation Center

- Designed a Java-based consultation system implementing **OOP principles**.
- Developed a **Java Swing** and **JavaFX GUI** to enhance user experience.

Mobile Application to View and Save Food Recipes

- Developed an Android app using **Kotlin** to fetch and display recipes from a public API with search by ingredient or food name.
- Integrated a **local database** to allow users to save and access favorite recipes offline.

Dice Game For Mobile

- Developed an Android mobile game using **Java** with an adjustable target score.
- Enabled multiplayer mode and AI opponent with easy and hard difficulty levels.

EDUCATION

Informatics Institute Of Technology

BEng(Hons) in Software Engineering

Sep 2021 – Present | Colombo

D.S.Senanayake College

2012 – 2020 | Colombo

Nangalla M.M.V

2007 – 2012 | Nangalla
